Washington, D. C.

This organization has for some time been engaged in establishing a new photographic reconnaissance program intended to take advantage of projected increases in booster capability and in advances in camera development. Recently, the substantial potential payload capability of the proposed Titan III vehicle prompted Dr. Charyk [REDACTED]

Inasmuch as the redirection occurred subsequent to the consummation of the 2 May 1962 agreement signed by Messrs. McCone and Gilpatric, it appears that the planning, procurement, and security for the new program should be conducted jointly.

It is proposed, therefore, that a meeting be held in the near future to determine and pursue a course of action in accordance with the above referenced agreement. If convenient to you, a day during the week of July 2d is suggested. It is further suggested that the meeting be held here because of the availability of the pertinent information.

Sincerely
